European Innovation Partnership on Active and Healthy Ageing (EIP on AHA)

Dr Andrea Pavlickova
NHS 24, Scotland

EC Open Days
10 October 2017, Brussels
Challenges to Care Delivery Models in Europe

- Ageing society
- Chronic conditions
- Health workforce shortage
- Financial unsustainability
- HLY vs LE
- Health inequalities
New Paradigm of Ageing in Europe

FROM:
- Societal challenge
- Burden
- Passive care
- Curing diseases

TO:
- Major opportunity
- Asset
- Pro-active care
- Improved functioning

Dependency Ratio
• From 1:4 to 1:2
• 80+ doubles by 2025

Cost of Care
• Up by 4-8% of GDP by 2025

Human Resources
- Shrinking workforce
- Lacking 20 mio carers by 2020

Empowerment
- Active Ageing
- Health literacy

New Care Models
• Integrated & Community care
• Large efficiency gains

Growth and Markets
• 3000 B€ Wealth
• 85 Million Consumers
European Innovation Partnership on Active & Healthy Ageing

crosscutting, connecting & engaging stakeholders across sectors, from private & public sector

Specific Actions

+2 HLY by 2020
Triple win for Europe

Pillar I
Prevention
screening early
diagnosis

Pillar II
Care &
cure

Pillar III
Independent
living &
active ageing

health & quality of life of European citizens

sustainable & efficient care systems

growth & expansion of EU industry

Improving prescriptions and adherence to treatment

Better management of health: preventing falls

Preventing functional decline & frailty

Integrated care for chronic conditions, including telecare

ICT solutions for independent living & active ageing

Age-friendly cities and environments
EIP on AHA:
voluntary collaboration for efficient and integrated care

+2 HEALTHY LIFE YEARS by 2020
A triple win for Europe
B3 Action Group on Integrated Care

The B3 Action Group (B3) was established in 2012 to develop as a response for Integrated care to the challenges set by the Strategic Implementation Plan (SIP) of the EIP on AHA:

The overall objective of the B3 is to:

“Reduce avoidable/unnecessary hospitalisation of older people with chronic conditions, through the effective implementation of integrated care programmes ad chronic disease management models that should ultimately contribute to the improved efficiency of health systems”
B3 Action Group on Integrated Care

- A new Call for commitments – January 2016;

- **Over 400** participants representing **193 commitments** received on behalf of regions, sub-national administrations, delivery organisations, patient/user and carer organisations, academic institutions and industry and member organisations

- **82 Commitments** from existing B3 Members, **11 new commitments**

- **37 Commitments** related to EU funded projects
“Reference Sites are highly inspirational ecosystems, delivering creative and workable solutions that improve the lives and health of older people. These solutions can be scaled-up and replicated across the EU”
Reference Sites Awards 2016 - Results

- 74 regions awarded RS status
- 8 regions awarded the highest award level status (4*)
- Commitment of over 4 billion euros to be invested in active & healthy ageing innovative solutions and benefit 5 million people over the next 3 years
Key Achievements
**B3 Action Group on Integrated Care**

### Strategic Priorities
1. Organisational Models
2. Change Management
3. Workforce Development
4. Risk Stratification
5. Care Pathways
6. Patient Empowerment
7. Electronic Care Records / ICT/Teleservices
8. Finance, Funding

### Deliverables
- **2013-2014**
  - Mapping of innovative practices
- **2015**
  - Practical Toolkits
  - Implementation on large scale

**Local implementation**
- Commitments of the partners

**More integrated, more efficient services**

> 50 regions by 2020
Local Implementation

B3 members are implementing chronic disease management programmes in 44 regions; and are focusing on scaling up and replication of their practices to reach the target of 50 regions and cover 10% of the target population.
Rich Collection of Good Practices

- Product of the unique collaborative work of the B3 members to map existing initiatives relevant to the delivery of integrated health and social care.
- The mapping exercise was not meant to select or validate a limited number of practices.

- Over 200 good practices collected throughout demonstrating that integrated care practices have potential to improve the quality and sustainability of services.
- [https://ec.europa.eu/eip/ageing/repository_en](https://ec.europa.eu/eip/ageing/repository_en)
Knowledge Transfer

- Formalised **inter-regional cooperation** in the form of Memoranda of Understanding, e.g. Scotland-Basque Country; Scotland – Region of South Denmark.
- **Twinning** activities among 30 European regions.
- Development of **regional networks** for active and healthy ageing.
- **Webinars** to facilitate the knowledge transfer.
- **Scientific articles and publications** in the area of change management, airways ICPs, ICT enabled care.
- Organisation and participation at a series of high level European and regional conferences.
The challenge remains how to best leverage this existing body of evidence to make knowledge transfer more effective / targeted in order to facilitate the scaling-up and adoption of integrated care innovation solutions in Europe.

✓ What actions have the more progressive regions taking in order to be successful?

✓ What can we learn from these pioneers about how to overcome barriers and accelerate results?

✓ What are the transferable elements of good practices / interventions for scaling-up?

✓ Can these lessons be structured into a conceptual ‘maturity model’ that could help aspiring regions to speed their own adoption?
Tools / frameworks are needed that can help us to understand how to move towards more sustainable health and care systems; how to support implementation, scalability and transferability of integrated care solutions in Europe.

Maturity Model for Integrated Care
B3 Maturity Model (Conceptual Framework)

- Interviews with 12 European regions
- Analysis /Identification of “indicators” or “characteristics of maturity
- Development of an assessment scale
From Conceptual Maturity Model to an Online Self-Assessment Tool for Integrated Care
Thank you!
